# COMPLETE COMFORT SEATING

## BONDED FIBRE WRAP

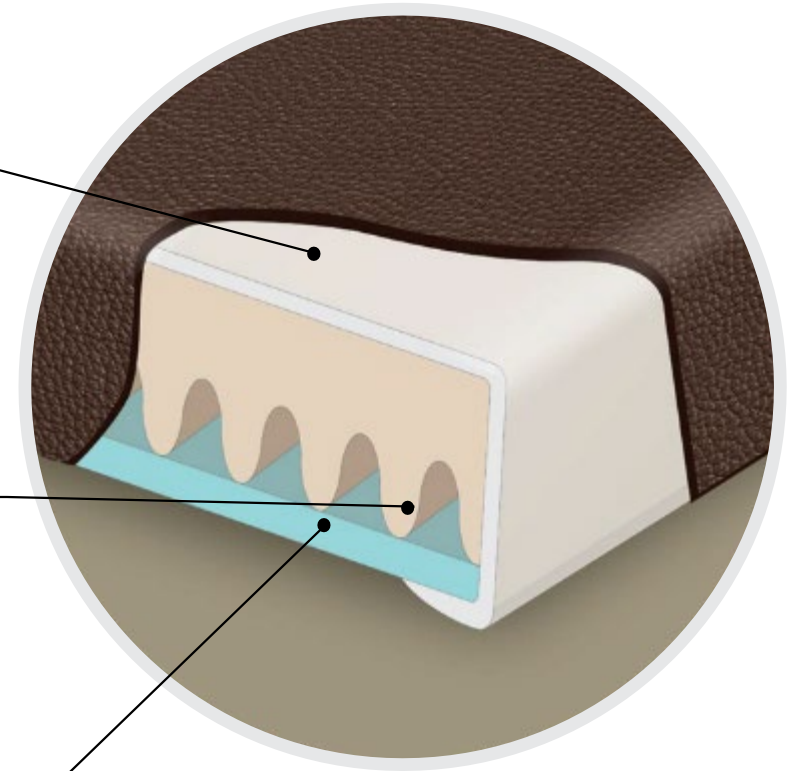

What you feel first is the gentle cushion of Bonded Fibre. It's the layer closest to you and provides an ultra soft touch surface.

## COMFORT WAVE

Experience the comfort of coils, without the coils. The innovative undulating waves form a perfect spring-like base providing the most comfort and support where you sit.

## STABILIZING FOAM

The final layer is the firmest and creates a strong and uniform base. The other softer layers are stabilized by this firm underlying structure and preserves cushion shape.
