*Designer Tip*

### How to Choose the Right Size Area Rug

**Living Room:** Ideally, all furniture legs or at least the front legs should rest on the rug.

**Dining Room:** The rug should extend at least 24" beyond the table to accommodate chairs.

**Bedroom:** A rug should extend beyond the bed for a balanced look and soft landing.

**Proportions Matter:** A rug that's too small can make a space feel disjointed—bigger is often better!
