UV Clean Technology

Why compromise on freshness? UV Clean technology treats incoming water to reduce bacteria without harsh chemicals or high heat. It gives your laundry a deep clean that keeps your machine smelling fresh and your fabrics protected.

Handwash Cycle

Stop stressing over delicate fabrics. This cycle mimics the gentle soak and agitation of a manual wash, so you can stop hand-washing your delicates and let the machine do the heavy lifting safely. It's the ultimate convenience for your most precious garments.

Smart Front Load Laundry Tower 5.2 cu. ft. Washer & 7.4 cu. ft. Electric Dryer with UV Clean Technology and FreshFlow™ Vent System

Keep your clothes and washer fresh, now with the added benefit of UV light technology that reduces bacteria in the wash without requiring harsh chemicals, high temperatures or risk of fading fabrics.
