

## **FIXTAN SV**

**Blend of ellagic and proanthocyanidin tannins designed for racking and the first phases of aging**

### **DESCRIPTION**

**Fixtan SV** is a blend of ellagic and anthocyanidin tannins. It has very high tannin content and high sensory quality. It appears in powder form with excellent wettability and instant solubility in wine. The product appears in coloration between brown and red.

### **COMPOSITION**

Blend of ellagic (oak) and condensed tannins.

### **APPLICATION**

**Fixtan SV** is a highly reactive tannin. Excellent action on color protection and stabilization. Excellent in combination with micro-oxygenation and for strengthening wines destined for wood aging. Improves the structure and volume of the wine, while protecting it from oxidation.

### **INSTRUCTIONS FOR USE**

**Fixtan SV** is soluble in cold water. It can also be added directly to the wine. Add to the mass with pumping over ensuring homogenization.

### **USAGE DOSES**

During racking or at the beginning of aging: 10 – 30 g/hl

### **PACKAGING**

1 kg and 15 kg packages

### **STORAGE**

Unopened package: store in a cool place (temperature below 25°C), dry, ventilated and odor-free. The product maintains its characteristics intact for at least 24 months from the production date.

Opened package: close carefully and store in a cool place (temperature below 15°C), dry and ventilated. Use the product within a short time.

### **HAZARDS**

This product must be stored, handled and used in accordance with appropriate industrial hygiene practices and in compliance with current legislation. Product for food and enological use, for professional use only.
