

EXPERTSAN WASH

Non-foaming chloroactive detergent

DESCRIPTION

It is a strongly degreasing detergent with good sanitizing power. In fact, **EXPERTSAN WASH** thanks to the presence of active chlorine ensures the maintenance of high hygienic standards.

It does not produce foam and is also suitable in the presence of hard water.

PROPERTIES

Suitable for cleaning and sanitizing systems in food industries, wineries, community equipment, milk and preserve processing, beverage production and packaging, farms and livestock operations.

ATTIVITÀ: in 1% aqueous solution **EXPERTSAN WASH** develops 650 ppm of active chlorine at origin.

DOSAGES AND USAGE INSTRUCTIONS

Pre-treatment with descaling agents is recommended.

EXPERTSAN WASH is used in 0.5-1% aqueous solution depending on various needs and the nature of residues to be eliminated. After use, perform thorough rinsing with abundant drinking water.

FIELD OF APPLICATION

Suitable for cleaning and sanitizing systems in food industries, wineries, community equipment, milk and preserve processing, beverage production and packaging, farms and livestock operations.

WARNINGS

Do not mix **EXPERTSAN WASH** with acidic products, do not expose to sunlight and heat sources, store in a cool place protected from light. Use protective gloves and glasses especially in case of manual use.

For further information consult the safety data sheet.

ATTENTION
