

EXPERSAN MF

Regenerating detergent for MF membranes

PROPERTIES

It is a regenerating detergent for microfiltration membranes, non-foaming, alkaline (based on caustic soda), specifically formulated for the needs of the food industry.

EXPERSAN MF does not produce foam and is also suitable in the presence of hard water.

DOSAGES AND USAGE INSTRUCTIONS

EXPERSAN MF is used in aqueous solution from 1 to 10% depending on various needs and the nature of residues to be eliminated. After use, perform thorough rinsing with abundant drinking water.

FIELD OF APPLICATION

EXPERSAN MF is a formulation suitable for cleaning/regeneration of microfiltration membranes in food and wine industries.

USEFUL INFORMATION FOR THE CONSUMER

Do not expose to sunlight and heat sources, therefore store in a cool place protected from light.

ATTENTION

PRODUCT FOR PROFESSIONAL USE

The product can pollute seas, lakes and rivers; do not exceed in use. Do not disperse the container into the environment after use.

PACKAGING

25 kg containers
