

EXPERTSAN DEC LIQUID

Non-foaming alkaline detergent

DESCRIPTION

It is a non-foaming alkaline detergent based on caustic soda specifically formulated for the needs of the food industry. **EXPERTSAN DEC LIQUID** does not produce foam and is also suitable in the presence of hard water.

PROPERTIES

Suitable for cleaning CIP systems in food industries, wineries, community equipment, milk and preserve processing, beverage production and packaging, farms and livestock operations.

Also used for cleaning barrels of any material (concrete, stainless steel, wood) in the food and wine sectors.

DOSAGES AND USAGE INSTRUCTIONS

EXPERTSAN DEC LIQUID is used in aqueous solution from 1 to 10% depending on various needs and the nature of residues to be eliminated. After use, perform thorough rinsing with abundant drinking water.

FIELD OF APPLICATION

EXPERTSAN DEC LIQUID is a formulation suitable for cleaning CIP systems in food industries, wineries, community equipment, milk and preserve processing, beverage production and packaging, farms and livestock operations.

Also used for cleaning barrels of any material (concrete, stainless steel, wood) in the food and wine sectors.
