

CLARIFY POLITABS

DESCRIPTION

Pvpp in tablets that allows to eliminate the inconveniences related to powder development. Preventive and curative treatment of oxidations. Selectively fixes low molecular weight phenolic compounds (catechins-leucoanthocyanins) responsible for wine browning.

Also available in tablets of approximately 1 gr each, with excellent solubility and ease of use.

COMPOSITION

Polyvinylpolypyrrolidone.

APPLICATION

Addition in suspension in the tank or during filtration when added to filtration aids is recommended.

DIRECTIONS FOR USE

1. Prepare a suspension of PVPP in about 10 parts of water. This operation must be performed at least 20/30 minutes before use.
2. Add to the mass to be treated.
3. Keep the mass in constant movement by means of closed-loop pumping over or with the aid of agitators. This operation must last at least half an hour..

DOSAGE

The use of 10 - 50 g/hl in white wines is recommended.

The dose may vary in reference to the concentration of total polyphenols present, particularly tannins with astringent taste.

PACKAGING

PVPP in TABLETS: 10 kg package

STORAGE

Closed package: store in a cool place (temperature below 25°C), dry, ventilated and odor-free. The product maintains its characteristics intact for at least 24 months from the production date.

Open package: close it carefully and store it in a cool place (temperature below 15°C), dry and ventilated. Use the product in a short time.

HAZARDS

This product must be stored, handled and used in accordance with suitable industrial hygiene practices and in conformity with current legislation. Product for food and enological use, for professional use only.
