

SCORZE 100

Pure yeast cell walls

DESCRIPTION

Pure cell walls derived from pure cultures of *Saccharomyces Cerevisiae* yeast.

COMPOSITION

Yeast hulls.

APPLICATION

Formula specifically studied to maximize the adsorbing effect towards fermentation inhibitory products: short-chain fatty acids produced by yeast during fermentation, toxins and phytosanitary residues.

INSTRUCTIONS FOR USE

Dissolve the preparation in water or directly in wine with a ratio of 1:10.
Add to the mass with pump-over protected from air.

DOSAGE

15-40 g/hL legal max dose 40g/hL

PACKAGING

25 kg

STORAGE

Closed package: store in a cool place (temperature below 25°C), dry, ventilated and free from odors. The product maintains its characteristics intact for at least 24 months from the production date.

Opened package: close carefully and store in a cool place (temperature below 15°C), dry and ventilated. Use the product promptly.

HAZARDS

This product must be stored, handled and used in accordance with suitable industrial hygiene practices and in compliance with current legislation. Product for food and oenological use, for professional use only.
