

KOMBAT

INSECTICIDE BAIT FOR FLY CONTROL READY-TO-USE

KOMBAT ready-to-use bait for fly control in livestock environments: house fly (*Musca domestica*) and stable fly (*Stomoxys calcitrans*). The product combines two insecticide molecules: Dinotefuran and Tetramethrin. In a few hours the insecticidal effect is evident. It also contains a Z9 Tricosene pheromone as an attractant.

The product is ideal for application in livestock (stables, pigsties, dairy facilities...). It acts by ingestion and by contact.

Application by painting. The painted panels, once dry, must be hung out of the reach of the animals and away from the feeders and drinkers, etc.

PROFESSIONAL USE FOR FLY CONTROL IN LIVESTOCK INSTALLATIONS

- Made with Dinotefuran, last generation insecticide molecule. New generation paint insecticide with pheromone for houseflies.
- Water soluble powder to apply by painting.
- Effectiveness up to 8 months.
- Use in livestock environment.

Effective against:

- House fly (*Musca domestica*)
- Stable fly (*Stomoxys calcitrans*)

DOSAGE AND USE: In order to avoid people and environmental risks, follow the instructions of use. Before using the product, read the label carefully.

Apply the product by mixing 100 grams of product with 80 ml of water, forming a paste with a consistency similar to thick paint. This quantity is sufficient for a surface of 100 m².

Application by painting: Paint with a brush or roller sheets of non-absorbent plastic or wood (30 cm x 30 cm), and once dry, hang them in places frequented by flies (around windows, corners, near of containers with water or food but not on containers that contain water/food).

The plastic or wood sheets painted with the product must not come into contact with the animals or with the feeders or drinkers. Reapply if a layer of dust covers the panels and prevents the action of the product.

COMPOSITION: Dinotefuran (12,5%), Z9 Tricosene (0,10%) and Tetramethrin (0,02%).

WARNINGS AND CAUTIONS: Acute Aquatic 1. Chronic Aquatic 1. H410 Very toxic to aquatic life with long lasting effects. P273 Avoid release to the environment. P391 Collect spillage. P501 Dispose of the contents and/or its container through an authorized manager of hazardous waste, in accordance with current regulations. ATTENTION: There can be clinical manifestations in case of exposure and/or contact with the product. Contains substances that can produce an allergic reaction.

STANDARD PRESENTATION: Paint bucket 125 gr.
