

# SIMBA

## CONCENTRATED EMULSIFIABLE INSECTICIDE-ACARICIDE WITH EXTENDED RESIDUAL EFFECT

The product SIMBA is an emulsifiable concentrate insecticide with an innovative formulation that is free from volatile compounds. Its action is centered around the components Etofenprox, Tetramethrin, and Piperonyl Butoxide.

The insecticide is characterized by its photostability and effectiveness at low doses for the control of crawling insects (cockroaches, ants, fleas, ticks, termites...), flying insects (mosquitoes, tiger mosquitoes, flies...), and mites. The product is a broad-spectrum, fast-acting insecticide with a long-lasting residual effect. It does not stain, contaminate, and has no odor.

The insecticide **SIMBA** is intended for use by specialized professional users.

### PROFESSIONAL USE AGAINST INSECTS AND MITES

- Formulated with Etofenprox, Tetramethrin, and Piperonyl Butoxide.
- Emulsifiable concentrate. Free from volatile compounds.
- Extended residual effect.
- It can be used in both outdoor and indoor spaces, including public facilities, domestic use, warehouses, transportation vehicles, and agricultural buildings.

### Effective against:

- Crawling insects: Cockroaches, Ants, Fleas, Ticks, Termites...
- Flying insects: Mosquitoes, Tiger mosquitoes, Flies...
- Mites

### DOSES AND USE:

-Apply a 0.8% solution in water (8 ml of product per liter of water) for routine treatment of mosquitoes and tiger mosquitoes in public and private gardens.

-Apply a 2-4% solution in water (20-40 ml of product per liter of water) for the treatment of mosquitoes, tiger mosquitoes, flies, and dust mites.

-Apply a 4-8% solution in water (40-80 ml of product per liter of water) for the treatment of cockroaches, flies, ants, wasps, ticks, fleas, beetles, and silverfish.

-Apply 1 liter of emulsion according to the previously mentioned doses on an area of 15-20m<sup>2</sup>. Highly absorbent surfaces such as rapidly drying concrete should be thoroughly wet. Slow-drying materials such as carpets should only be lightly sprayed.

**-Residual Activity:** The residual activity of the product may vary depending on the nature of the surface and its degree of cleanliness. Therefore, the surface should be retreated when necessary.

**COMPOSITION:** Etofenprox (5%), Tetramethrin (0.75%), and Piperonyl Butoxide (3.75%).

**STANDAR PACKAGING:** 125-grams container; 28 container of 125grams per box.

**WARNINGS AND PRECAUTIONS:** H319 Causes serious eye irritation. H362 May cause harm to breast-fed children. H410 Very toxic to aquatic life with long lasting effects. P201 Obtain special instructions before use. P260 Do not breathe dust/fume/gas/mist/vapours/spray. P263 Avoid contact during pregnancy and while nursing. P273 Avoid release to the environment. P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/... P391 Collect spillage. P501 Dispose of contents and/or container in accordance with current regulations.
