President's Message

"Education is the foundation upon which we build our future"

"Education is not preparation for life, Education is life itself." Giving the children a new life thru education is our motive. As you know education is the movement from darkness to light. With this aim and vision to educate underprivileged children from Rural/ Slum areas, Prayas Social Welfare Society was established 20 years ago and now, with a total of 81 schools has been setup for offering free education to such children.

Prayas is continuously inculcating developing skills into the coming generations. We also inculcate in them good values like respect, kindness, honesty, courage, perseverance, self-discipline, compassion, generosity, dependability, empathy and so on. We help them strive and achieve the goal of becoming an independent & lead a life with confidence and full of happiness.

Prayas SWS is serving as an essential stepping stone for a fulfilling life and career as "Education is the foundation upon which we build our future". Teachers are the pillars of this foundation to achieve the Endeavour. Without the support of our teachers this mission would be impossible. Each of us connected with Prayas in one way or the other is responsible for the happy and healthy living of the children. I would also like to take this opportunity to thank all our team members and well wishers connected with Prayas for their kind support who have made this happen. I appreciate their involvement for this noble cause without which this would not have happened.

I feel that more and more people should be connected with this noble cause not only financially but in one way or the other to serve the society in the best possible way.

The newsletter focuses on the events organized by Prayas SWS with the joining hands on new governing body.
