Many people think life is joy but only few people realise that joy comes from service and the real Joy comes from serving humanity that is defined outside ourselves and our personal comfort and happiness. I am glad that PRAYAS has shown their deep desire to serve the underprivileged children belonging to the families of Construction labourers working inside our campus. I am hopeful that the steps taken in partnership with PRAYAS will result into some meaningful outcomes and will bring a smile on the faces of these children.

FOUNDER CHAIRMAN'S MESSAGE

Education is not just about going to school and getting a degree. It's about widening your knowledge and absorbing the truth about life.

It is crystal clear that creativity is the key to success in the future, and primary real education is where teachers can bring creativity in children by enlightening them in thinking intensively and critically. But only if the real sense of education could be realized by each individual and carried forward in every field of human activity, the world will be so much a better place to live in.

Prayas Social Welfare Society, a non-profit organization regards imparting education as an imperative need of the hour and takes up the initiative in developing our nation by providing free education to poor and street children. Till now it has been running regular classes at 50 centers, where it provides completely free of cost education to 5000 underprivileged children with its special emphasis on girl child education.

It gives us a belief that education leads us from the irresponsible opinion to true responsible judgment and from chance and arbitrariness to rational clarity and intellectual order. Therefore, it guides its students over the road of discipline from materials, through function, to creative work at free of cost for their moral upliftment and self dependency.

I wish all the very best to newly elected executive committee.

FROM THE DESK OF PRESIDENT

"Education is the most powerful weapon which you can use to change the world." Giving the children a new life through education is our motive. With this aim and vision to educate underprivileged children from Rural/ Slum areas, Prayas Social Welfare Society was established 20 years ago and is offering free education to such children.

As you know "An investment in knowledge pays the best interest". So to get the best result in future we need to invest in the present. Our present is the young minds, whom we educate to get better lives. Prayas not only focuses on education, it also focus on the vocational courses for the grown-ups to help them earn their livelihood and become independent. In Prayas we also educate children on health and induce in them the rights along with providing Education. We believe a life is meaningless without the knowledge of etiquettes and values.

FROM THE DESK OF GENERAL SECRETARY

"Prayas" is a journey of serving underprivileged section of society started from basic education to 20 slum children long back in late 90's, to the education to more than 5000 students in 50 centres, setting up a state-to-art vocational centre and running health dispensaries.

This remarkable journey could not be possible without vigorous efforts of our founders, predecessors, generosity of life members, several individuals and corporate donors. So, now it becomes our duty to take "Prayas" to greater heights. I have a strong belief that "Prayas" needs to build a strong team of volunteers having professional expertise, business women, housewives & college students. The management can envisage their vision and mission, but under their leadership and guidance, a good team can implement that into reality.

"Prayas" vocational centre has immense potential and this is the need of hour, to add new certified vocational courses to make our youth employable.

Prayas Social Welfare Society (Regd.) is purely a non govt. social service organisation. The Organization is having a non political, non religious and non commercial character. It was established on 20th Sept 1999. PSWS is mainly engaged in imparting completely free education to the children of Economically Weaker Section.

OUR VISION

To empower and provide opportunity to children & women of economically weaker section of the society & make them skilled citizens of the country.

OUR MISSION

To provide absolutely free education, health care and vocational training to children (especially girl child) and women of all caste and creed of weaker section of society.

Our Main Focus Areas

Education
