

## Torsionally flexible coupling complete

Part no.: 3016740

Product description: Kupplung 48/60-60/31,75 K

| Characteristic            | Value / Characteristic / Information |
|---------------------------|--------------------------------------|
| Coupling size             | 48/60                                |
| Execution of the drilling | reciprocally cylindric               |
| Material of the clutch    | GG/GG                                |
