

**AM - Aquamicon**

Part no.: 3114428

Product description: N5AM001

| Characteristic                | Value / Characteristic / Information |
|-------------------------------|--------------------------------------|
| By-pass                       | no by-pass                           |
| Customer protection           | without custom. protection           |
| Element material              | Aquamicon                            |
| Filterfeinheit                | 1 µm                                 |
| Further characteristics elem. | no further details                   |
| sealing material              | FPM (Viton)                          |
| Size                          | 5                                    |
