

## Torsionally flexible coupling complete

Part no.: 950272

Product description: KUPPLUNG 38/45-42/28

| Characteristic            | Value / Characteristic / Information |
|---------------------------|--------------------------------------|
| authorization             | no                                   |
| authorization             | no                                   |
| Coupling size             | 38/45                                |
| Execution of the drilling | reciprocally cylindric               |
| Material of the clutch    | GG/GG                                |
