WORK EXPERIENCE

Senior Software Engineer
Folio3 Software Inc.

04/2020 - Present   *Lahore, Pakistan*
Achievements/Tasks

- Optimizely - I worked with the 'Web usability' team to clear backlog items and enhance the product, analyzed user feedback, prioritized improvements, and streamlined workflows to improve usability.
- Cactus Farm - I maintained and optimized CattleView modules, integrated them, improved UI, optimized performance, and developed new features. Our work significantly enhanced farm management efficiency for pork and cattle farming.
- Folio3 Pulse - I worked with the Line Manager and Feedback module, enhancing team efficiency. My work ensured seamless functionality and user-friendly interfaces, empowering effective collaboration within the platform.
- GroupAlvic - Revolutionizes kitchen design with its intuitive 3D platform. I spearheaded UI enhancements, ensuring seamless navigation and aesthetic appeal.
- PrecisionGlass - React-Native mobile application for managing pickups, orders, tracking, and admin controls. I worked on monitoring orders, pickups, and associated charges within the app.
- ClinicLive - Advanced telemedicine solution connecting remote patients efficiently. I developed an Admin portal for clinic management and a web app for doctors to conduct video consultations and manage appointments. Leveraging React Native, Twilio, and other APIs, I built a mobile app for seamless patient-practitioner connectivity.
- ClinicAlly - Cloud-based practice management software for aesthetic clinics, built on Angular. I upgraded the Angular version, ensuring backward compatibility, and added new features and modules for customization across different clinics.

Senior Software Engineer
Software Alliance

01/2020 - 04/2020   *Lahore, Pakistan*
Achievements/Tasks

- BLOCK.io - Online blockchain based multi-exchange platform for exchange-holders. Lead the Front-end team using ReactJs and other required 3rd-party libraries required to handle a complex yet userfriendly UI and UX.

Associate Software Engineer
Widespread Electrical Sales
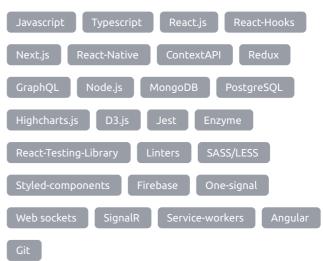

05/2018 - 01/2020   *Lahore, Pakistan*
Achievements/Tasks

- READOUT - Book reading app (IOS & Android) specifically focuses on reading clubs using react-native, styled-components, and React-Apollo at the front-end and GraphQL at the back-end with mongoDB. Also built the static site for it in NextJS.
- WIDESPREAD ELECTRICAL SALES - Built version 2.0 of the solution with NextJS, Redux, Bootstrap, and other react libraries at the front end.

SKILLS

Javascript	Typescript	React.js	React-Hooks
