WORK EXPERIENCE

Senior Software Engineer

Folio3 Software Inc.

06/2021 - 02/2025

Lahore, Pakistan

Achievements/Tasks

- Optimizely - Worked with their 'Web usability' team to clear the backlog and enhance their product.
- Cattytics - Developed and implemented new features like Calendar and Dashboard to enhance project capabilities and attract new customers. Focused on improving functionality and user experience to drive engagement and increase product value.
- CactusFarm - I maintained and optimized CattleView modules, integrated them, improved UI, optimized performance, and developed new features. Our work significantly enhanced farm management efficiency for pork and cattle farming.
- Group Alvic - Revolutionized kitchen design with an intuitive 3D platform. Led UI enhancements for seamless navigation and aesthetics, refined visuals, optimized user experience, and integrated new features, resulting in a user-friendly, visually stunning platform for effortless kitchen creation.
- Folio3Pulse - Built line manager module to enhance review system.
- PrecisionGlass - Mobile Application built on React-Native for companies, handling and managing the pickups, orders, pickup-tracking, and admin controls for PrecisionGlass manager.
- ClinicAlly - Cloud Based Practice Management Software & Treatment Planning System for Aesthetic Clinics, an angular application, I helped to update the version of angular while maintaining the backward compatibility, also added new feature-sets and modules for up-gradation and customisation for different clinics.
- ClinicLive - Telemedicine Software, connecting With remote patients in the most advanced and cost-effective way, I worked on Admin and web applications for doctors and React-native mobile applications for patients.
