

Help reduce mess and cost.

EmesEase™ Emesis Bags are an efficient and cost-effective solution for hospitals and surgery centers. The single-use emesis bags are easy for both patients and practitioners to use. The notches on the rim allow for simple closure to help promote infection control, prevent lingering odors, and aid in easy disposal.

EmesEase® | Emesis Bag

Features and Benefits

Easy Open, Easy Use - Pull open the EmesEase Emesis bag to help ensure all emesis is captured inside. The wide, plastic rim can be easily twisted and notched closed to help reduce odor and aid in clean disposal.

Reduce Laundry Costs - The wide rim and deep bag provide ample space to catch emesis and minimize the risk of soiled linens and/or floors.

Improve Infection Control - Use the EmesEase Emesis bag to help ensure emesis is captured and contained in the bag.

Instructions

1. Pull open the bag just prior to use.
2. Twist and notch the bag into the rim for easy close, disposal, and odor control.
