

Take a stand against floor fluid buildup.

The Fluid Fighter® Suction Mat by Typenex® Medical is thoughtfully engineered to capture fluid from the surface while suction is drawn through a system of channels within the mat. This low-profile floor fluid management solution is designed with high-quality materials and can be securely adhered to your operating room floor.

Fluid Fighter® | Suction Mat

Features and Benefits

Dual Action — Absorbent top layer works simultaneously with an internal suction system to better manage fluid buildup.

Low-Profile — Four adhesive patches grip to the floor, keeping the mat flat and bulk-free.

Quality Design — Size and features are optimized to provide the best coverage and suction.

Efficient — Easy cleanup and disposal allows for a quick turnover between procedures.
