

# Clear wound drain blockage safely and easily.

The Typenex® Medical Drain Glider makes it easy to clear and unclog inserted wound drains. It's the answer for clinicians who are looking for a simple way to unblock drains without pulling or yanking on the tube when used as directed.\* The easy-to-use design allows clinicians and patients to smoothly clear the drain with minimal effort or patient discomfort.

# Drain Glider™

## Features and Benefits

**Easy to use** - Fits in the user's hand and on the drain tube so you can quickly clear blockage

**Efficient** - Clamps down on the tube to create a tight grip for easy clearance

**Convenient** - Rests unclamped on the drain so it does not get lost
