

Smooth streaking, smooth savings.

Typenex® Medical offers a smart selection of plastic inoculation loops and needles to support a wide range of specimen streaking applications and preferences. Offered in both flexible and rigid formats, our microbiology disposables have been thoughtfully designed to deliver ideal performance and optimal cost savings.

Inoculation Loops and Needles

Inoculation Loops and Needles

Features and Benefits

Versatile Offerings — Choose soft flexible loops for gentle malleability or rigid formats for firmer control.

Quality Design — Hexagonal shaft improves grip while smooth loop head surfaces make for ideal streaking.

Resealable Packaging — Sterile, calibrated,* color-coded, and packaged in resealable bags for easy identification and organization.

Ordering Information

Part Number	Description	Format	Size	Color	Units/Case
LP0102	Inoculation Loops	Rigid	1 μ L	Orange	1000 (20/Bag, 50 Bags/Case)
LP0202	Inoculation Loops	Rigid	10 μ L	Dark Blue	1000 (20/Bag, 50 Bags/Case)
LP0103	Inoculation Loops	Flexible	1 μ L	Yellow	1000 (20/Bag, 50 Bags/Case)
LP0203	Inoculation Loops	Flexible	10 μ L	Green	1000 (20/Bag, 50 Bags/Case)
LP0302	Inoculation Needles	Rigid	—	Red	1000 (20/Bag, 50 Bags/Case)

*Calibrated using the Evans Blue Dye Method.
