

A threefold approach to patient safety.

Specifically designed to help hospitals and healthcare providers improve patient safety during blood transfusions, the Slim 3™ Blood Band provides a Blood Band Identification Number (BBID), protection of patient information, and reattachment capabilities.

Slim 3™

Features and Benefits

Blood Bank ID (BBID) - Uniquely generated 8-digit BBID helps improve safety by helping prevent blood transfusion errors. We create the BBID, so you do not have to

R3™ Compatible - Easily reattach, relocate, and resize the Slim 3 Blood Band with the exclusive and patented R3 Reattachment System

Durable - Our smudge-proof material protects the patient information for up to 3 days during normal use
