

Your operating room floor's first line of defense.

The Fluid Fighter® Suction Strip is a sleek, low-profile device that quietly and continuously suctions fluid from the operating room floor. Designed with strategically placed suction ports and absorbent padding underneath, the Fluid Fighter Suction Strip can be easily applied and repositioned to suction, absorb, and contain floor fluid buildup — helping to improve room turnover time.

Fluid Fighter® | Suction Strip

Fluid Fighter® | Suction Strip

Features and Benefits

Quiet — Absorbent material on the bottom of the device helps mitigate noise.

Powerful — Continuously suctions floor fluid waste throughout fluid-intensive procedures.

Compatible — Pre-attached 12 ft tubing suitable for all standard operating room suction systems.
