

Tailored for patient comfort.

The Trach-Tie® is a soft yet stable solution to help secure tracheostomy tubes and keep them in place. Made with high-quality moisture-wicking materials, this tracheostomy neckband is designed to help maximize patient comfort during short or long-term ventilation.

Trach-Tie® | Tracheostomy Tube Neckband

Trach-Tie® | Tracheostomy Tube Neckband

Features and Benefits

Comfortable — Made with thick foam padding for enhanced patient comfort. Not made with natural rubber latex.

Durable — Features moisture-repellent materials and Velcro hook tabs for long-lasting wear and security.

Adjustable — Optional two-piece designs allow for customization of size and length.
