

Help reduce mess and cost.

EmesEase® Emesis Bags are an efficient and cost-effective solution for hospitals and surgery centers. The single-use emesis bags are easy for both patients and practitioners to use. The notches on the rim allow for simple closure to help prevent lingering odors and aid in easy disposal.

EmesEase® | Emesis Bag

Features and Benefits

Easy Open, Easy Use — Simply pull open to help ensure all emesis is captured inside. The plastic rim can be easily twisted and notched closed to help reduce odor and aid in clean disposal.

Reduce Laundry Costs — The wide rim and deep bag provide ample space to catch emesis and minimize the risk of soiled linens and/or floors.

Instructions

1. Pull open the emesis bag just prior to use.
2. For disposal, twist the emesis bag and notch it into the plastic rim.
