

# Smooth streaking, smooth savings.

Typenex® Medical offers a smart selection of plastic inoculation loops and needles to support a wide range of specimen streaking applications and preferences. Offered in both flexible and rigid formats, our microbiology disposables have been thoughtfully designed to deliver ideal performance and optimal cost savings.

# Inoculation Loops and Needles

## Features and Benefits

**Versatile Offerings** — Choose soft flexible loops for gentle malleability or rigid formats for firmer control.

**Quality Design** — Hexagonal shaft improves grip while smooth loop head surfaces make for ideal streaking.

**Resealable Packaging** — Sterile, calibrated,\* color-coded, and packaged in resealable bags for easy identification and organization.

## Ordering Information

Part Number	Description	Format	Size	Color	Units/Case
LP0102	Inoculation Loops	Rigid	1 $\mu$ L	Orange	1000 (20/Bag, 50 Bags/Case)
LP0202	Inoculation Loops	Rigid	10 $\mu$ L	Dark Blue	1000 (20/Bag, 50 Bags/Case)
LP0103	Inoculation Loops	Flexible	1 $\mu$ L	Yellow	1000 (20/Bag, 50 Bags/Case)
LP0203	Inoculation Loops	Flexible	10 $\mu$ L	Green	1000 (20/Bag, 50 Bags/Case)
LP0302	Inoculation Needles	Rigid	—	Red	1000 (20/Bag, 50 Bags/Case)

\*Calibrated using the Evans Blue Dye Method.
