

# Ultra savings.

Typenex® Medical offers two styles of ultrasound probe covers to support routine ultrasounds and general purposes. Designed with extended lengths and conveniently packaged with sterile gel packets, our ultrasound probe covers are affordable drop-in solutions that allow for seamless integration and maximized cost savings.

# Ultrasound Probe Covers

## Features and Benefits

**Reduced Risk** — Minimizes the risk of cross-contamination between the ultrasound probe and the patient's intact skin during scanning procedures.

**Additional Protection** — Available in extended 48" and 96" lengths for added coverage.

**Cost Savings** — Competitively priced to help secure substantial savings.
