

# Cost savings shouldn't be a stretch.

Typenex® Medical is proud to offer a tailored portfolio of tourniquets to support routine phlebotomy applications such as blood collection and IV insertions. Our tourniquets are single-use, pre-cut, non-sterile, and not made with natural rubber latex.

# Tourniquets

## Features and Benefits

**Cost-Effective** — Affordable direct drop-in solution offers substantial cost savings.

**Reliable Inventory** — Dependable supply chain; readily available to ship.

**Textured** — Designed to help provide a slip-resistant surface.
