

# Plans

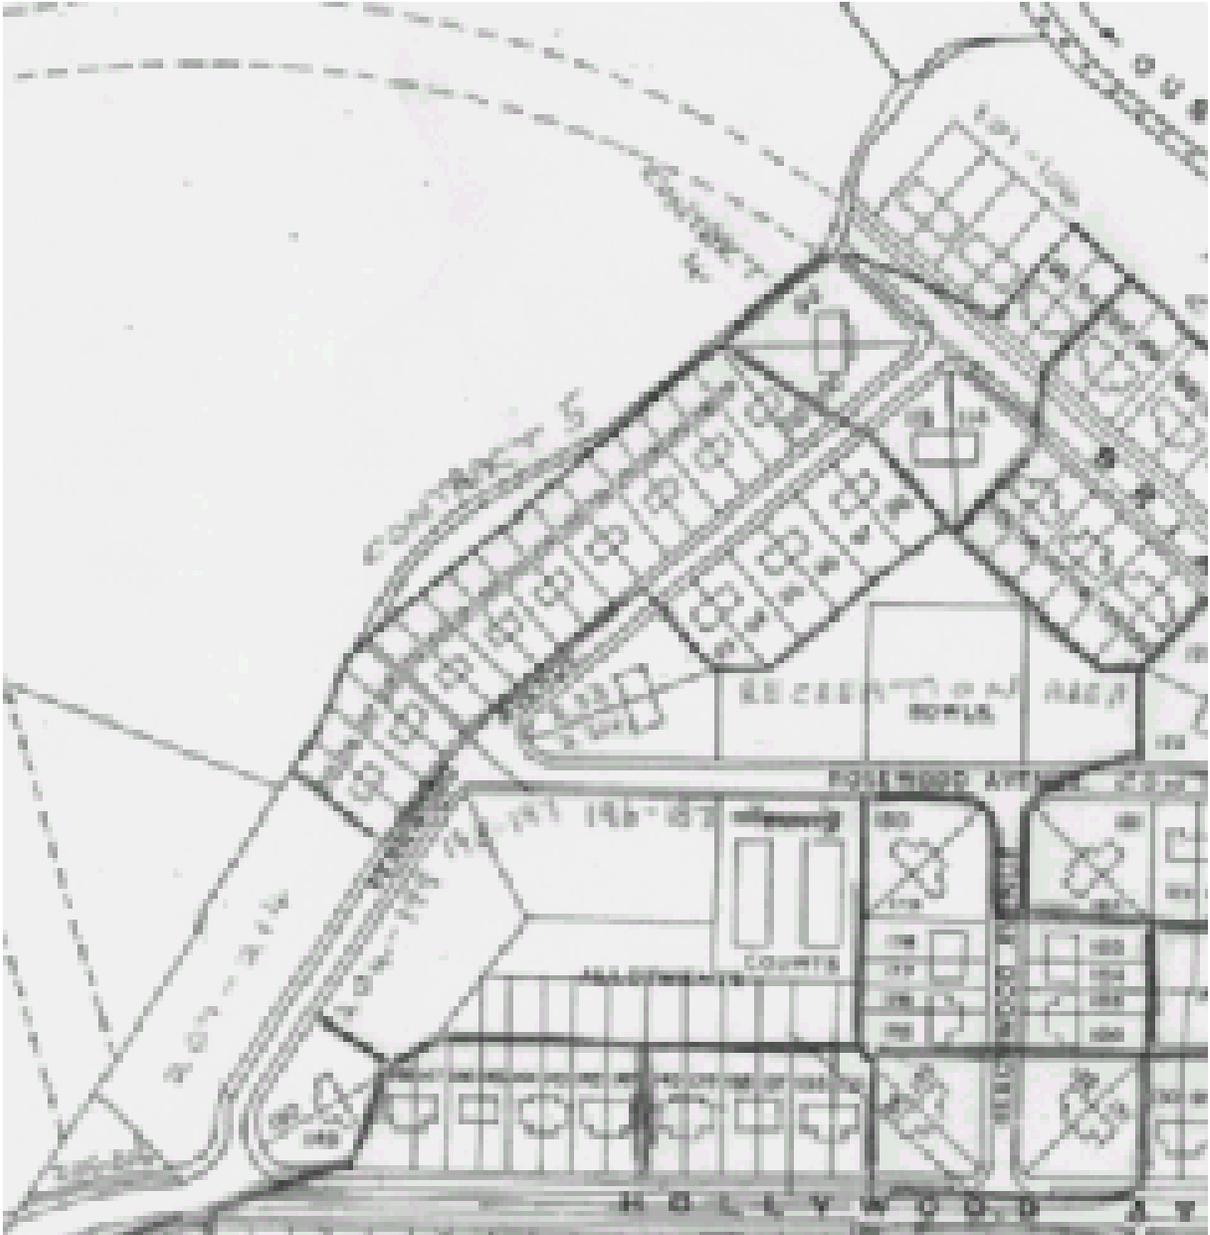

1927

1928

You can see the difference in the layouts between the occupation of number 90 in 1927 and number 92 in 1928. The 1919 town plan can also be seen in outline where the golf course is now.

On Fernwood Avenue, opposite to the alley to Rosewood, there is a pathway between two plots. Today there is a garage at the bottom of the garden with a small gate between it and the boundary fence. What was the path for? Had there been a footbridge there?
