'D' Shackles
Qty: 6

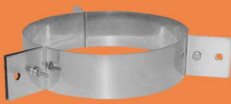

FIG 5.

Hook & Eye Barrel Strainers
Qty: 3

STOVE-CARE GUY WIRE KIT

Stove-care guy wire kit allows you to secure your chimney by using a Guy Wire Bracket (not included in this pack) and this easy to use kit. The kit should be sufficient to erect three ten metre runs of wire, with all the components required to install them.

STEP 1	STEP 2	STEP 3
Secure the GUY WIRE BRACKET (not supplied in this pack) to your chimney.	Pass the 3mm Wire Rope (FIG 1) through the Wire Rope Grip (FIG 2) to create loop as shown below.	Insert THIMBLE (FIG 3) inside loop. Tighten the Wire Rope Grip using the nuts until the Thimble is secure as below.
 (Guy Wire Bracket Usually Purchased with the Flue Pipes.)		
STEP 4	STEP 5	STEP 6
Unscrew the DEE SHACKLE (Fig 4) and pass through the loop as below.	Attach the Barrel Strainer (Fig 5) via the 'eye' by passing through the threaded bar component of the "D" Shackle as shown below.	Secure the Hook & Eye Strainers to either bolts or screws that have been secured in masonry.
