

GRONK FITNESS CFT

SKU-5010-G1

The Gronk Fitness CFT is a commercial-grade dual adjustable pulley system designed to train the full body across every plane of motion. Featuring dual independent 250 lb selectorized weight stacks and 37 precision cable height adjustments per column, the CFT delivers complete muscle recruitment without the constraints of fixed-axis machines.

Built for commercial gyms, personal training studios, rehabilitation facilities, and premium home gyms, the CFT features a heavy-duty steel frame, stainless steel guide rods, an integrated multi-grip pull-up bar, and 500 lbs of combined stack capacity for elite-level strength training.

PRODUCT FEATURES

DUAL 250 LB WEIGHT STACKS

Two independent selectorized stacks deliver symmetrical resistance for balanced bilateral strength development.

37 CABLE HEIGHT ADJUSTMENTS

Micro-adjustable columns per side enable precise exercise specificity across the full range of motion.

COMMERCIAL-GRADE FRAME

Heavy-duty steel structure withstands the demands of high-frequency commercial training environments.

STAINLESS STEEL GUIDE RODS

Corrosion-resistant rods ensure smooth, consistent cable travel and long-term reliable performance under load.

INTEGRATED PULL-UP BAR

Multiple grip positions expand upper-body training options without requiring additional equipment.

ACCESSORY & BAND PEGS

Integrated storage and band attachment points extend versatility across cable, bodyweight, and band exercises.
