

The Gronk Fitness Selectorized Assisted Chin/Dip Combo provides versatile upper-body training by combining assisted chin-ups and dips into one commercial-grade machine, allowing users to effectively build strength in the chest, back, shoulders, and arms. Constructed with a durable steel frame and a precision selectorized weight stack, it delivers smooth, consistent assistance with quick and easy adjustments to accommodate all fitness levels. Ergonomic knee pads and thoughtfully designed handles promote proper form and user comfort. The high-quality cables and pulleys ensure fluid, controlled movement. Built to withstand frequent use, this dual-function unit is ideal for commercial gyms, training facilities, and performance-focused strength environments.
