

SH-G8827

Leg Press Pad Optimization

The curved foam padding has been redesigned with a flatter profile to increase contact area with the legs, improving overall comfort during workouts.

Refined Seat Structure

The seat cushion thickness has been reduced to eliminate movement restrictions caused by the previous thicker design, allowing for a fuller range of motion.

Compact Yet Powerful

Optimized dimensions (**1220mm x 1200mm x 1350mm**) provide a space-efficient design while handling up to **100kg** of training weight for a challenging and effective workout.

Optimized Handle Placement

The handles have been repositioned from the sides to above the leg pad, aligning better with natural movement patterns during exercise.

PRODUCT SPECIFICATIONS

Dimension	1220 × 1200 × 1350 mm / 48 × 47 × 53 in
Max User Weight	150 kg / 331 lbs
Max Training Weight	100 kg / 221 lbs
Muscles	Hamstrings
N.W.	300 kg / 661 lbs
G.W.	341 kg / 752 lbs
Loading Capacity:	20GP: 12 units / 40HQ: 30 units
