SH-B9100ET

SH-B9100E

S2 SERIES ELLIPTICAL

40 Levels of Adjustable Resistance

Featuring 40 resistance levels, the B9100E surpasses the standard 25-level design of most elliptical trainers. This offers finer control and supports users of all fitness levels—from beginners to advanced athletes.

Suspended Front Drive Natural And Smooth Movement Trajectory

The suspension-type front-drive design utilizes bearing-based transmission at all motion joints, eliminating the need for traditional tracks. This ensures quieter operation and smoother movement. The upward-sloping elliptical path provides a natural and fluid workout experience.

Up to 21.5" Touchscreen with Wireless Charging

The upgraded model offers a 21.5" full touchscreen, delivering enhanced visual clarity and intuitive interaction. All touchscreen versions now support wireless smartphone charging, aligning with modern user expectations and enhancing the premium feel of the equipment.

* Only compatible with models equipped with touch screens

Power from within. Strength that lasts.

Equipped with a self-generating power system*, it requires no external electricity—every ride transforms energy into sustainable performance.

*Available to models equipped with LED console only

UPGRADED

Slimmer, More Accessible Design

Body Width Reduced from 873 mm to 780 mm

The slimmer design makes it easier to fit through doors in older residential buildings, improving accessibility and installation convenience.

Longer Stride, Smoother Motion

Stride Length Increased from 20" (520 mm) to 21" (533 mm)

The extended stride better accommodates a wider range of users, delivering a more natural and fluid workout experience.

Enhanced Grip Comfort

Upgraded from Cast Aluminum to ABS + TPU Overmolding

The redesigned handrails provide a softer, more refined touch, making every workout more comfortable and enjoyable.

Ergonomic Optimization

Designed for Greater Comfort and Easier Movement

- Fixed Handrail Angle: Adjusted from 75° to 55° for a more natural and comfortable grip.
- Moving Handrail Range: Increased by 20 mm to better accommodate users of different sizes.

COMPATIBLE WITH MULTIPLE SCREEN CONSOLE

- 21.5" Touch Screen - SH-B9100ET(S2+)
- 15.6" Touch Screen - SH-B9100ET(S2+)
- 15.6" LED - SH-B9100E(S2)
