

GENERAL CLEANING SPRAY

Features:

Effectively, intensely and specially cleans oily machine parts, disc brakes, brake parts and such. Is fast, its scope is wide and leaves no residuals. Does not corrode, not harms rubber and plastic parts.

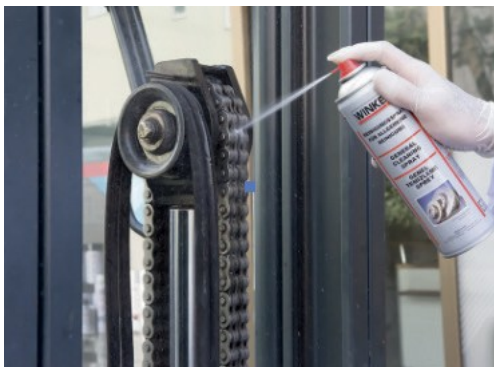

- Very good cleaning effect
- High evaporation rate
- Cleans residue-free
- Protection against immediate rusting
- Silicone and PTFE free

Operation Range:

- For maintenance, repair and assembly of grease and gumming
- For degreasing and activating parts before gluing and painting
- Removes oils and resin crusts, synthetic oil and silicone residues
- Ideal for residue-free cleaning

Application:

Spray the cleaner on the parts to be cleaned. Leave briefly. Check for compatibility with plastic and paint by preliminary test.
