

# Hand Cleaning Cream (Fast Orange)

## TECHNICAL DATA SHEET

### **Description:**

*Hand Cleaning Cream* is a fresh scented hand cleaner for daily use. Hand Cleaning Cream is hydrocarbon solvent-free and does not dry hands, even with frequent use. The product cleans intensively through the mineral abrasives present. After use, a pleasant orange scent remains on the skin.

*Hand Cleaning Cream* is used to remove normal and medium pollution such as oil, grease and industrial dirt from the hands. The hand cleaner is also used for household and hobby applications.

The natural power of orange oil cleans deeply and also removes stubborn grease and soot contamination. Enriched with lanolin.

### **Application:**

*Hand Cleaning Cream* is a universal hand cleaner for normal and medium pollution as they occur in the commercial sector. Recommended applications: resins, oil, grease, tar, soot, mud, printer ink, varnish, rubber, cement, sealant and glue

### **Method to use:**

By pressing the dispenser, you dose the required amount of Hand Cleaning Cream and carefully distribute it over your hands. Rub the hands until the dirt dissolves in the Hand cleaner. If wanted use a little amount of water to make a foam that dissolves the dirt. Finally rinse thoroughly and dry hands.

### **Typical Properties:**
