

ANTI-SEIZE COPPER PASTE

Features:

WINKEL Copper Paste is a copper containing assembling paste with extra-ordinary lubricating properties. The product prevents fretting during assembling and provides for a loose screw-connection, also after a long-term influence of heat and atmospheric effect. Moreover the product contains water repellent components and protects against corrosion. The adhesion is excellent. In the formulation are no metals like aluminium, nickel, molybdenum, lead, zinc, chromium etc.

Areas of application:

Applicable as assembling and ant-seize paste: Workshops, Road-building, Marine, Tram, Railway, Metro, Offshore, Agriculture, Steel Factories, Chemical installations, etc.

Application:

Clean the parts first if possible and apply in a thin layer. Do not mix with normal greases. Can be used in grease cartridges and central grease systems

Technical Data:

Color	Copper
Components	Viscous mineral oil, copper, inorganic binders, additives
Density	Ca 1,1 kg/l
NLGI-grade	2
Thermal stability	Excellent
Thermal application	-20°C to +150°C, copper components up to +1700°C

ART. NR.
W 150 202

PACKAGING:
1 KG
