## OUR PHILOSOPHY

Hi, we're Morgan + Adolfo! We're so glad that you are here. Weddings are a lot and hold so many expectations (We know this because we were in your shoes just a few months ago) so let's just take a breath together. Feel better? With that done, let's get to the core value of our job on your wedding day.

We are there on your wedding day not only to capture one of the biggest days of your lives together, but also the biggest home family video you'll ever have, EVER. It truly is an honor to be there on your wedding day and we give you the biggest thank you by making your core memories + those a part of it live for generations in your true to you film.

Let's not bore you with all the nerdy language that is involved in wedding videography, but we'll explain the style in a short and sweet manor, We build your core memory film off *emotion*, not a formula.
