BONG BERCASIO

Full-Stack Web Developer

Davao City, Philippines • +63 910 276 4396 • bercasiobongbong@gmail.com • 2026-l5sf-nkd3v7go5-bercasiobongsprojects.vercel.app

PROFESSIONAL SUMMARY

Web Developer with 3 years and 2 months of professional experience in web development. Started as a Junior Web Developer working with WordPress and SEO, and later gained experience in full-stack development using PHP, Laravel, JavaScript, AJAX, and MySQL. Experienced in developing and maintaining ERP and School Management systems. Also have experience with the MERN and PERN stacks, including React, Node.js, Express.js, MongoDB, PostgreSQL, and REST APIs. Familiar with AI-assisted development tools such as Cursor and Claude to support coding, debugging, and problem-solving. A practical and reliable developer who enjoys learning, solving problems, and working with others to build useful web applications.

WORK EXPERIENCE

Full-Stack Web Developer | ITECH RAR Solution *November 2024 – August 2026*

- Developed and maintained the company's ERP System and School Management System, implementing features for inventory, student records, attendance, grading, and report generation.
- Built responsive user interfaces, backend functionality, dashboards, and automated PDF reports to improve operational efficiency and user experience.
- Provided technical support by troubleshooting client issues, resolving bugs, and implementing feature enhancements based on user feedback.
- Collaborated with clients and cross-functional teams throughout development, testing, deployment, and ongoing system improvements.

Freelance Full-Stack Developer | IBislig Center *February 2024 – December 2024*

- Designed and developed a complete POS and ERP System with modules for inventory management, sales transactions, customer records, and real-time stock monitoring.
- Built dashboards, analytics, and PDF reporting features to provide sales insights and streamline daily business operations.
- Managed the full software development lifecycle, including planning, development, testing, deployment, and client demonstrations of the working system.

Junior Web Developer | Oso Link Solution *March 2023 – September 2023*

- Developed and maintained the company's WordPress website, improving responsiveness, performance, and overall user experience.
- Implemented SEO best practices and optimized website content to improve search engine visibility and online presence.
- Customized website pages, managed content updates, and performed website maintenance, troubleshooting, and performance optimization.
