

MICROSCOPE ACCESSORY

PROTECTING SCREEN

HIGHEST SAFETY IN MICROSCOPY

- High surface protection
- Completely transparent
- High resistant and flexible material

The protecting screen for Optomic Microscopes has been specially designed to allow a safe and comfortable work on the microscope. Easy to mount and work with. Designed to be fixed between the binocular and microscope head. This allows an easy and safe locking of the transparent materials.

MICROSCOPE ACCESSORY **PROTECTING SCREEN**

FIXING ADAPTOR
