Section A

Question 1.

Read the following passage carefully :

(1) As a young adult, life can be stressful and overwhelming at times. Juggling among school, work, social life, and other responsibilities, it can be easy to feel alone and disconnected from the world around us. Dogs are the ultimate companions for anyone looking to alleviate stress and loneliness. We'll explore many reasons why dogs make the best companions for young adults.

(2) Unconditional love : Dogs are known for their loyalty and love for their owners, no matter what. They don't judge us, criticize us, or hold grudges against us. No matter how flawed or imperfect we may be, our dogs will always love us unconditionally. This kind of unwavering support and affection can be incredibly comforting for young adults struggling to find their place in the world.

(3) Social connection : Dogs are great ice-breakers and conversation starters. Whether you're walking them in the park, taking them to the dog beach, or simply hanging out at home, dogs have a way of bringing people together. For young adults who may feel isolated or disconnected from their peers, having a dog by their side can be a great way to connect with others and form new friendships.

(4) Increase physical activity : Dogs require regular exercise in order to stay healthy and happy. This means that young adults who own dogs are more likely to engage in physical activity themselves. Whether it's going for a run, playing frisbee, or simply taking a leisurely stroll, getting out with your dog can be a great way to boost your mood and energy levels.

(5) Emotional support : Dogs are also great emotional support animals for those struggling with mental health issues such as anxiety and depression. Their presence alone can provide a sense of calm and comfort, and their ability to sense their owner's emotions can be incredibly comforting. For young adults dealing with mental health challenges, having a dog as a companion can be a life-changing experience.

(6) Improve responsibility and self-care : Owning a dog also comes with a great deal of responsibility and self-care. Dogs require regular feeding, grooming, exercise, and attention, which can be a great way for young adults to develop a sense of responsibility and self-discipline. Additionally, having a dog as a companion can encourage young adults to take better care of themselves, such as making sure they get enough sleep, eat healthy, and engage in regular exercise.

(7) For all these reasons and more, dogs make fantastic companions for young adults. Whether you're looking for emotional support, social connection, increased physical activity, or simply someone to love and be loved by, a dog can provide all these things and more. So the next time you're feeling stressed or overwhelmed, consider finding a furry friend to take on the world with you.

Question 2.

Read the following passage carefully :

(1) A recent survey conducted by an independent research firm sought to measure levels of happiness among youth aged 16 – 24 years in seven countries. The findings revealed some intriguing insights into what makes today's youth happiest, as well as which factors influence their overall well-being. In India, an overwhelming majority of the youth reported feeling satisfied with their lives, with 87% rating of their overall happiness as 'high' or 'very high.' Financial security was identified as the primary source of happiness for 66%, followed by family support (89%), having a purpose in life (50%), and work or studies (40%). Unfortunately, 65% reported feeling stress related to academic performance or workload, while 25% reported feeling lonely. These figures point to a need for increased mental health support among India's youth.

(2) These surveys also revealed that family support is an important source of contentment for young people across countries. In Europe, 59% of respondents said that their families were a major source of happiness; in France this figure was 67%, and 63% in Germany. In North America, 64% rated family as an important factor for well-being in Canada, while 61% did so in the United States. Similarly, 89% of survey respondents in India named family support as a major contributor to their overall contentment level.

(3) It is clear that stress has a significant impact on the happiness of today's youth. The findings suggest that young people need better resources to manage their mental health and well-being. This may include access to counselling services, mindfulness activities and support groups to help them cope with challenging circumstances. It is also important to provide financial support so as to reduce some of the economic pressures.

(4) In India, 65% of youth surveyed reported feeling anxious about their academic performance or workload, while 25% felt lonely. These figures are especially significant given how important family support is for young people's overall contentment.
