Boat seating redefined

Sunbrella is charting new waters and redefining the boating experience with Horizon, our first coated marine seating fabric.

It's engineered to meet the Sunbrella brand standard of artistry and craftsmanship, featuring powerful resistance to microbial

pinking, cold-cracking, stretching and fading. Sporting a luxuriously soft and smooth hand, this revolutionary textile also features

two distinct embossing patterns and comes in a wide array of colors designed to integrate perfectly with other Sunbrella products.

Season after season, Horizon keeps shipshape so the only thing on your mind is enjoying the wind, waves and good company.

Anchors aweigh!

SUNBRELLA IS PERFORMANCE :

Sunbrella fabrics are the ultimate defense in harsh marine environments, maintaining their durability and beauty long after other marine fabrics begin to break down or require repair.

Resists Microbial Pinking

Sunbrella Horizon's proprietary top coat ensures exceptional bacterial stain-resistant performance and protection against pink stains, featuring the only 3-year warranty against microbial pinking in the marine industry.

Proven Durability

Engineered to be long-lasting with unwavering strength, Sunbrella Horizon exceeds industry standards for durability without feeling heavy or stiff.

4-Way Stretch & Recovery

Knit-backed construction allows for easy fabrication and provides excellent 4-way stretch to prevent misshaping and maintain long-term comfort and performance.

Ultra-Soft Hand

Sunbrella Horizon's durability is matched only by its incredible softness and comfort, making it an industry best.

Color and Design Variety

Sunbrella Horizon comes in two textures (Capriccio a leather like effect available in 23 colors including 14 on stock at Hordain and Sorrento a textile effect with 10 references available on stock). The color used in Sunbrella woven marine fabrics easily coordinate every interior and exterior boat application.

Resists Cold-Cracking

In temperatures as low as -30°C, Sunbrella Horizon wards off brittleness.

Mold and Mildew Resistant

Sunbrella Horizon has remarkable resistance to mold and mildew due to its proprietary top coat.

UV / Fade Resistant

Sunbrella Horizon is manufactured with highly UV-stable pigments, making them resistant to fading and the degrading effects of sunlight.

Bleach Cleanable

Sunbrella Horizon is safe to clean and disinfect using a bleach solution without the worry of damaging its look, feel or durability.

Easy to Clean

Sunbrella Horizon's unique finish stops messes at the surface, making it easy to wipe clean.

Non phthalate

Why invest in Horizon ?

It's true, Sunbrella Horizon does come at a higher price point compared to its competition. It will also outlast the competition and offers the best guarantee in the marine industry against pink staining.

The value of Horizon and other Sunbrella fabrics aligns with its gold standard status. Sunbrella consistently places a high value on providing quality craftsmanship and performance, standing behind every fiber in every fabric.

With decades of proven experience in engineering fabrics, Sunbrella's industry excellence is why it is a preferred brand around the globe.

Premium performance indoors, outdoors and on the water

Horizon exceeds industry standards for performance in durability, colorfastness, cleanability and comfort. Your customers can expect Horizon to maintain its durability and appearance long after other fabrics would begin to break down or require repair.

Marine application :

Sunbrella Horizon is ideal for marine upholstery applications, including pilot chairs, sofa cushions, bench seating, and sunpads.

Plus, Sunbrella Horizon is easy to work with when fabricating.

Easy fabrication :

One of the best reasons that professionals choose Sunbrella is because it's easy to work with and performs beautifully in application.

Sunbrella Horizon is extremely durable, smooth, soft to the touch and the knit-backed construction shows incredible elasticity as it yields to body pressure and returns to its original size and form once pressure is lifted, preventing misshaping and puddling making them easy to install.

Horizon's four-way stretch quality makes fabrication even easier.

Simple care and cleaning :

While Sunbrella Horizon fabric offers excellent protection against stains, full removal is not always guaranteed if stains are not addressed promptly.

Use a water-based solvent, isopropyl (rubbing) alcohol, or a non-abrasive cleaner.

Do not use abrasive cloths or cleaners as to avoid surface damage.

For more detailed cleaning instructions, visit our 'How to Clean' section on sunbrella.com
