## Professional Summary

Aspiring AI/ML engineer and full-stack developer with hands-on experience building scalable web applications using Django and designing intuitive user interfaces with Figma. Passionate about integrating intelligent systems into real-world applications, with recent exploration into LLMs such as Ollama, LLaMA, and DeepSeek-V2 for lightweight, local AI use cases. Adept at blending backend logic with clean UI/UX design, and continually exploring the intersection of machine learning, automation, and modern web development.

## Tech Stack

Languages : Python | C | HTML(Django) | CSS  
Frameworks: Django  
Tools: Git | GitHub | Docker  
Databases: PostgreSQL | MySQL | MongoDB  
Soft Skills: Problem Solving | Critical Thinking | Adaptability | Leadership

## Projects

Foodify – OTP-verified food delivery system with admin dashboard  
Tech: Django, HTML, CSS, PostgreSQL

Voice-Controlled Robot – Real-time robotic movement via voice commands  
Tech: Python, SpeechRecognition, Arduino

Dynamic Portfolio – Self-hosted admin panel to manage projects and skills  
Tech: Django, JavaScript

## Education

B.Tech – Artificial Intelligence and Machine Learning  
Vel Tech University | Expected: May 2027

Advance Diploma in Python Programming (with C/C++ Programming )  
CSC Computer Centre | Completed: June 2024

Full Stack Development (Udemy)  
Completed: Dec. 2024
