

VOLVO V60

V60 MOMENTUM

The Volvo V60 Momentum variant offers a high specification level that includes an automatic rain sensor, power adjustable driver's seat with memory function, electric lumbar support, an active 8" TFT crystal driver's display, rear park assist, grocery bag holder, aluminium sill protector at the tailgate and bright decor trim around the side windows.

Variants:	Diesel	Petrol
	D4 Geartronic	T4 Geartronic
		T5 Geartronic

V60 INSCRIPTION

The Inscription variant is the ultimate upgrade. The combination of a power adjustable passenger seat, 3-spoke leather steering wheel with decor inlay, bright decor on the front spoiler and active bending Bi-Xenon headlights with headlight cleaning system enhances the level of luxury on this variant. A High Performance multimedia audio system with a 7" colour display screen, internet connectivity and Bluetooth® also come as standard.

Variants:	Diesel	Petrol
	D4 Geartronic	T4 Geartronic
	D5 Geartronic	T5 Geartronic
		T6 Geartronic AWD

V60 *R-DESIGN*

New 18" Ixion diamond cut alloy wheels together with the R-DESIGN chassis enhance the handling of this model. Visual presence is complemented with silver matt door mirrors, R-DESIGN unique rear exhaust pipes, sports seats with side support, R-DESIGN aluminium interior trim, unique R-DESIGN tread plates and a R-DESIGN sports leather steering wheel. A High Performance multimedia audio system with a 7" colour display screen, internet connectivity and Bluetooth® also come as standard.

Variants:	Diesel	Petrol
	D5 Geartronic	T6 Geartronic AWD

THE RIGHT EQUIPMENT. It is essential that your Volvo comes equipped with everything you need. Below you will find standard equipment for each model variant, plus optional equipment to personalise your Volvo V60. And as you would expect, there is an array of industry-leading, cutting edge safety innovations.

STANDARD EQUIPMENT - SAFETY AND SECURITY	Momentum	Inscription	R-DESIGN
City Safety	•	•	•

“Sensus is our way of enabling you to communicate instinctively with your car, and keep you connected with your digital world.”

YOU'RE IN CONTROL, NATURALLY.

SENSUS

We have designed a gorgeous space around the driver. All of our instruments and controls are intuitive and easy to use. We call this approach of connecting you and your car with the world around you, “Sensus”.

You can also choose between three unique instrument cluster modes to customize your driving experience even further.

The Sensus screen is a multimedia hub, giving you immediate connectivity to information and entertainment at your fingertips.

City Safety functions at speeds up to 50 km/h. This system can help prevent a collision if the difference in speed between your vehicle and the vehicle ahead is less than 15 km/h.

We've further improved our optional Blind Spot Information System (BLIS). It now uses radar technology to alert you to vehicles closing up in your blind spot. There's also Cross Traffic Alert, which watches out for vehicles you can't see when you're reversing out of tight parking spaces.

Because we care about other road-users just as much as you, Pedestrian and Cyclist Detection with Full Auto-Brake watches out for pedestrians and cyclist in your path and applies the brakes if you're unable to react in time.

“Relax and let your Volvo do the hard work for you.”

“Our Drive-E powertrains give you an exhilarating driving experience with smooth, instant response and a reduced environmental impact.”

COMMITTED TO SAFETY.

SUSTAINABLE DRIVING IS EXCITING.

INTELLISAFE

Since the birth of Volvo Cars in 1927, keeping you safe has been part of our DNA. We have pioneered safety advances and invented life-saving technologies, such as the three-point safety belt. We have also equipped all of our cars with safety cages and laminated windscreens since 1944. In 1976, we developed the catalytic converter and the lambda sond, a sensor that monitors exhaust gas, reducing emissions and boosting performance as well as economy.

Today, we are building cars that actively scan the area around you, looking out for the unexpected. Volvo pioneered City Safety, a low-speed collision avoidance technology that helps prevent collisions at speeds up to 50 km/h. We were the world's first car manufacturer to include this feature as standard equipment in all new models.

We also developed Pedestrian Detection, a system that detects pedestrians and brakes

the car when necessary, and we will not stop there.

Tracker Connect provides access to roadside assistance and emergency support at the touch of a button. Also included is automatic collision alert, which notifies a trained operator to contact the vehicle and send emergency service as soon as a collision is detected. In the future, our aim is to design cars that will prevent collisions with other road users altogether.

DRIVE-E

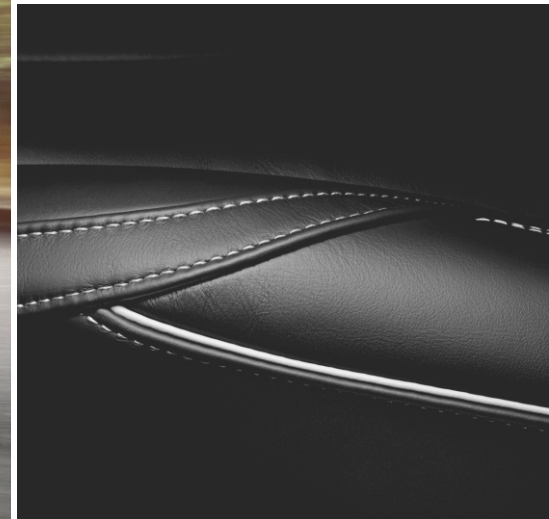

At the heart of every Volvo car we make is our approach to sustainable driving and innovative thinking. We offer a range of technologies that give you greater efficiency and lower running costs.

Our Drive-E powertrains combine the low fuel consumption and emissions of a four cylinder engine with the performance of a six or eight cylinder engine. The result is a smooth, powerful drive, with fewer stops at the pumps. We also offer an interior Air Quality System that checks incoming air for pollutants and closes the vents when necessary – we call this CleanZone. An active carbon filter helps

protect you from harmful gases and unpleasant odors, so you can breathe happy and healthy.

At Volvo Cars, we always strive to make our manufacturing process sustainable. All of the electricity for our factories in Sweden and Belgium comes from clean hydro-electric or wind power. Environmentally-aware mobility is central to our philosophy of intelligent, thoughtful luxury.

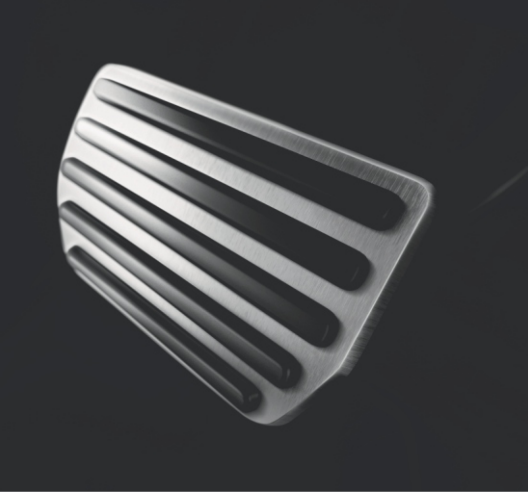

Proud sponsor of the unfair advantage

Choose the Volvo V60 R-DESIGN variant and the V60 receives a first class attitude adjustment – inside and out. Boldly provocative yet tastefully reserved, the exclusive R-DESIGN styling elements and special chassis express a definitive passion for sport. From its aggressive prow with larger intakes to the rear diffuser with dual tailpipes, the Volvo V60 R-DESIGN exudes confidence at every turn.

There are times in life when you have to turn up the volume. The V60 R-DESIGN dials up the physical and emotional dynamics beautifully. Outstanding R-DESIGN elements include: five-spoke diamond cut 18" Ixion wheels, specially stitched R-DESIGN sport seats and an exclusive leather three-spoke steering wheel with a stamped metal R-DESIGN badge.

R-DESIGN upholstery

Settle back in unique off black full leather sportsseats.

R-DESIGN décor inlay

The centre stack and door handle inlays convey a sporty, contemporary feel.

Sports gear knob

The illuminated gear knob with perforated leather, gives the gear knob an exciting look and feel.

Sports pedals

Enhance the driving experience with these tough, ridged sports pedals.

Sports steering wheel

Every R-DESIGN model features an exclusive sports steering wheel with embossed logo.

R-DESIGN digital instrument cluster

The R-DESIGN variants get an intuitive digital driver information display with a unique R-DESIGN sporty blue start-up theme.

Sports floor mats

Look down and you will see exclusive sports floor mats that set the stage, front and back.

EXTERIOR DESIGN. V60 Alloy wheels.

The results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally, driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.

- * All fuel consumption figures and CO₂ emissions are based on the New European Driving Cycle (NEDC) test procedure. This test procedure is designed to assess the emission levels of car engines and fuel economy in passenger cars.
- * The results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally, driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.
- * The weight of the vehicle will influence the level of CO₂ emitted. As a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO₂.

POWER STEERING SYSTEM Turning circle, m (rack and pinion)	ALL MODELS
