## Work experience

### Google Chrome Extensions

ClickUp, November 2022 - Jan 2023

Designing end-to-end experience for ClickUp (San diego). Developed and maintained chrome extensions to enhance the user experience for the company's various products.

### Smart India Hackathon Winner

August 2022

Winner, Smart India Hackathon (SIH) 2022 Software Edition: Presented for problem statement VS931. Implemented the whole backend; check on SIH website, Team Name: TheRookies. Backend required both dynamic messaging and emailing, also ticket forwarding on regular intervals.

### Tantrotsav Hackathon Winner (2022)

September 2022

This was an intra-college hackathon in which i won in the web-app track. The project was to build a social media app within 18 hours. I had done the best and won with my team, which consisted of classmates

### TechnoVerse Winner GDSC 2023

The Challenge was simple, it was building something related to Freelance marketplace. But this time i was **solo** and had to build something useful against all teams competing in the Web Track, and came out to be victorious.
