

The Ultimate Hokkaido Adventure

Summer is one to savour

Summer in Niseko is an ode to the sublime pleasures of life. Under clear skies, blossoming flower fields and rolling greens as far as the eye can see are framed by stunning alpine peaks. The land explodes in a riot of colour and the vibe is mellow.

Niseko in the summer is truly heaven on earth; where you can step into the highest culinary echelons and explore some of the world's most picturesque landscapes. And with the long daylight hours, the pleasure virtually never ends in Niseko.

An Abundance of Activities

Summer in Hokkaido is a veritable eden. Rolling mountain ranges descend into the sea towards the west, farmland stretches on endlessly, crystal clear lakes play host to summer fun and fields of delicate flowers are aroused from their slumber. This is your playground. This is where you can make your dreams come true.

This playground sets the stage on which to create some sensational memories. What better way to play your part than to embrace all of the amazing outdoor action that Hokkaido has to offer. There are no shortage of roles on offer; from the slow and serene to the all out adrenaline rush. There is cycling, hiking, bathing in the natural mineral waters of a Hokkaido onsen, fishing, scenic gondola rides, white water rafting, stand up paddle boarding and more. The choice is yours.
