

# The Ultimate Hokkaido Golf Odyssey

## Slow down to savour

---

Summer in Niseko is an ode to the sublime pleasures of life. Under clear skies, blossoming flower fields and rolling greens as far as the eye can see are framed by stunning alpine peaks. While the land explodes in a riot of colour, the vibe is mellow.

Niseko in the summer is truly heaven on earth; where you can step into the highest culinary echelons and golf on some of the world's most picturesque courses. And with the long daylight hours, the pleasure virtually never ends in Niseko.

## Of Cobalt Skies and Manicured Greens

---

When pristine snowfields turn into verdant green, golf once again returns full swing in Hokkaido. Under clear blue skies and against the stunning backdrop of Mt. Yotei, Niseko is a true golfer's paradise with exquisitely manicured courses and picture-perfect terrain. Hokkaido is home to over 150 golf courses and some of Japan's most picturesque greens; 3 of these courses are found in Niseko, such as Hanazono Golf Course. Located at the base of Mt. Niseko-Annupuri this course is hailed as the most beautiful place to golf in Japan.

Hokkaido's playing season spans from April to October where the changing seasons accent the beauty of your golfing experience: vibrant cherry blossoms in Spring; early dawn games with clear skies and cool climes in Summer; and autumnal colours in Fall. Hokkaido also has 'through play' for those looking to play 18 holes without stopping for lunch.
