## Summer in Hokkaido

Summer in Hokkaido is a veritable eden of culinary delights, exquisite experiences and endless adventures. The snow melts and the landscape is transformed in what seems like an instant from winter white to lush, saturated green. Rolling mountain ranges descend into the sea towards the west, farmland stretches on endlessly, crystal clear lakes play host to summer fun and fields of delicate flowers are aroused from their slumber. This is your playground. This is where you can make your dreams come true.

## An Abundance of Activities

This playground sets the stage on which to create some sensational memories. What better way to play your part than to embrace all of the amazing outdoor action that Hokkaido has to offer. There are no shortage of roles on offer; from the slow and serene to the all out adrenaline rush. There is cycling, hiking, bathing in the natural mineral waters of a Hokkaido onsen, fishing, scenic gondola rides, white water rafting, stand up paddle boarding and more. The choice is yours.
