Summer in Hokkaido

Summer in Hokkaido is a veritable eden of culinary delights, exquisite experiences and endless adventures. The snow melts and the landscape is transformed in what seems like an instant from winter white to lush, saturated green. Rolling mountain ranges descend into the sea towards the west, farmland stretches on endlessly, crystal clear lakes play host to summer fun and fields of delicate flowers are aroused from their slumber. This is your playground. This is where you can make your dreams come true.

On Golden Greens

With the coming of spring the sun returns and bathes the golfing greens in a golden morning glow. Hokkaido is home to some of Japan's most picturesque greens; 3 of these courses are found in Niseko. Under clear blue skies and against the stunning backdrop of Mt. Yotei, Niseko is a true golfer's paradise. The changing seasons accent the beauty of your golfing experience: vibrant cherry blossoms in Spring; early dawn games with clear skies and cool climates in Summer; and autumnal colours in Fall.
